

Technical Code DVS 1619-1

Supersedes issue: February 2022

Technical Code DVS 1619-1

Declaration of conformity as a welding manufacturer in rail vehicle construction to the EN 15085 series of standards

Technical Committee of the DVS

Working Group A7 “Welding in rail-vehicle construction”

Table of Contents

1.	Purpose	4
2.	Scope of Validity	4
3.	Conformity assessment procedure	4
3.1.	Conformity assessment by a first party	4
3.2.	Conformity assessment by a second party	5
3.3.	Conformity assessment by a third party	5
4.	Criteria for the selection of conformity assessment procedures	5
4.1.	Conformity assessment for railway vehicles in accordance with Directive (EU) 2016/798	5
4.1.1.	Classification level EN 15085-2 – CL 1:	5
4.1.2.	Classification level EN 15085-2 – CL 2:	5
4.1.3.	Classification level EN 15085-2 – CL 3:	6
4.2.	Conformity assessment for trams, undergrounds, or other rail vehicles	6
5.	Requirements for welding manufacturer according to EN 15085-2	6
5.1.	General	6
5.2.	Small welding shop/manufacturer	6
5.3.	Further production sites	6
5.3.1.	Scope of activity D	6
5.3.2.	For welding operations outside the welding shop for E and M	6
5.3.3.	In the case of repair or mobile repair for M	7
5.4.	Welding coordinator	7
5.4.1.	Provision of welding supervisory personnel (SAP)	7
5.4.2.	Qualification of welding supervisors	7
5.4.3.	Subcontracting of welding supervision	8
5.5.	Welders and operators	9
5.5.1.	Qualification	9
5.5.2.	In-house training	9
5.6.	Testing personnel for non-destructive testing	10
5.7.	Personnel for visual inspection of welds	10
5.8.	Technical equipment	11
5.9.	Subcontracting of welding work	11
5.10.	Supplementary regulations for commercially available attached components / parts	11
5.11.	Supplementary provisions for manufacturer qualification for longitudinally welded hollow sections as semi-finished products	11
5.12.	Supplementary regulations for brazing and TIG soldering	12
5.13.	Supplementary regulations for single-purpose production	12
5.14.	Supplementary Provisions for the Welding of Damping Rings on Wheelsets	12
5.15.	Welding of additively manufactured components	12
5.16.	Handheld Laser Beam Welding (HLS)	12
6.	Design requirements according to EN 15085-3	13
6.1.	Selection of weld quality classes	13
6.2.	Selection of weld seam inspection classes	13
6.3.	Selection of base metals	13
6.4.	Selection of filler materials	14

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – German Welding Society and those participating in the drawing up of the document.

This text is aimed equally at men and women. However, to improve readability, the text does not use the masculine/feminine form throughout and only the masculine form is used.
