Technical Bulletin DVS 0911

Tungsten carbide electrodes for tungsten inert gas welding

DVS, Technical Committee, Working Group "Arc welding"

Nachdruck und Kopie, auch auszugsweise, nur mit Genehmigung des Herausgebers

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration as an important source of information is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document

Inhalt:

1. **Scope**
2. **Requirements for tungsten electrodes**
 - 2.1. Arc ignition
 - 2.2. Service life of tungsten electrodes
 - 2.3. Arc stability
 - 2.4. Current load
3. **Using tungsten electrodes**
 - 3.1. Gas shield
 - 3.2. Tip shapes for tungsten inert gas welding and plasma arc welding
 - 3.3. Penetration shape
 - 3.4. Wear and tear
4. **Selection of tungsten electrodes**
 - 4.1. Composition of tungsten electrodes
5. **Other information**
 - 5.1. Quality requirements
 - 5.2. Handling instructions and storage
 - 5.3. Safety instructions when using tungsten electrodes containing thorium oxide
6. **References**
 - 6.1. Standards
 - 6.2. Regulations
 - 6.3. Bibliography
