

## **Technical Code DVS 2208-1**

### **Welding of thermoplastics**

### **Machines and devices for the heated tool welding of pipes, piping parts and panels**

DVS, Technical Committee, Working Group "Joining of Plastics"

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration as an important source of information is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document

**Content:**

<b>1.</b>	<b>Scope of application .....</b>	<b>4</b>
<b>2.</b>	<b>General requirements on machines for heated tool butt welding and heated tool sleeve welding .....</b>	<b>4</b>
2.1.	Clamping facilities .....	4
2.2.	Guiding elements .....	4
2.3.	Facility for the weld preparation .....	5
2.4.	Arrangement of the heated tool .....	5
2.5.	Control and regulation facilities .....	5
2.5.1.	Force control .....	5
2.5.2.	Time control .....	5
2.5.3.	Displacement control .....	5
2.5.4.	Record sheet printout .....	6
2.6.	Structure and identification of the machines .....	6
2.7.	Operational safety .....	6
2.8.	Inspection and maintenance .....	6
2.9.	General requirements on heated tools .....	7
2.9.1.	Designing .....	7
2.9.2.	Materials .....	7
2.9.3.	Surface condition .....	7
2.9.4.	Minimum power of the heated tool .....	8
2.9.5.	Minimum temperature range .....	8
2.9.6.	Temperature accuracy .....	8
<b>3.</b>	<b>Machines for heated tool butt welding .....</b>	<b>9</b>
3.1.	Welding machines for pipes .....	9
3.1.1.	Clamping facilities .....	9
3.1.2.	Guiding elements and clamping facilities .....	9
3.1.3.	Heated tools .....	10
3.1.4.	Facility for the weld preparation .....	11
3.1.5.	Control and regulation facility for the force, the time, the temperature and the displacement .....	11
3.1.6.	Structure of the machine and safety in utilisation .....	12
3.2.	Welding machines for panels .....	12
3.2.1.	Clamping facilities .....	13
3.2.2.	Guiding elements .....	13
3.2.3.	Heated tools .....	13
3.2.4.	Control and regulation facilities .....	13
3.2.5.	Structure of the machine and safety in utilisation .....	13
<b>4.</b>	<b>Machines for heated tool sleeve welding .....</b>	<b>14</b>
4.1.	Designs .....	14
4.2.	Technological variants .....	14
4.3.	Welding machines and devices .....	15
4.3.1.	Heated tools .....	15
4.3.2.	Clamping facilities .....	16
4.3.3.	Guiding elements .....	16
4.3.4.	Control and regulation facilities for the force and the displacement .....	16
<b>5.</b>	<b>Devices for sleeve welding with an incorporated electric heating element .....</b>	<b>16</b>
5.1.	Structural designing .....	16
5.1.1.	General .....	16
5.1.2.	Electrical safety .....	17
