

## **Technical Code DVS 2208-1**

### **Welding of thermoplastics**

### **Machines and equipment for the heated tool welding of pipes, pipe components and panels**

Technical Committee of the DVS

Working Group W „Joining Plastics“

Subgroup W4.1a „Heated tool welding of pipes and panels“

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document.

**Content:**

<b>1.</b>	<b>Scope .....</b>	<b>4</b>
<b>2.</b>	<b>General requirements .....</b>	<b>4</b>
2.1.	Electrical safety .....	4
<b>3.</b>	<b>Requirements of machines used for heated plate welding and heated tool sleeve welding.....</b>	<b>4</b>
3.1.	Clamping devices .....	5
3.2.	Guide elements .....	5
3.3.	Weld preparation fixture .....	5
3.4.	Positioning of the heated tool .....	5
3.5.	Control and regulating devices.....	5
3.5.1.	Force control .....	5
3.5.2.	Logging .....	5
3.6.	Inspection .....	5
3.7.	General requirements for heated tools.....	5
3.7.1.	Design .....	6
3.7.2.	Surface condition .....	6
3.7.3.	Minimum output of the heated tool.....	6
3.8.	Temperature accuracy .....	6
<b>4.</b>	<b>Machines for heated plate welding .....</b>	<b>7</b>
4.1.	Welding machines for pipes and piping parts .....	7
4.1.1.	Guide elements and clamping devices .....	7
4.1.2.	Heated tools .....	8
4.1.3.	Weld preparation fixture .....	8
4.1.4.	Force control .....	8
4.1.5.	Time control .....	9
4.2.	Welding machines for plates .....	9
4.2.1.	Workpiece support and clamping devices .....	9
4.2.2.	Guide elements and application of joining force .....	10
4.2.3.	Heated tools .....	10
4.2.4.	Control and regulating devices .....	11
<b>5.</b>	<b>Equipment and machines for heated tool sleeve welding .....</b>	<b>11</b>
5.1.	Models.....	11
5.2.	Technological variants .....	11
5.3.	Welding machines and equipment .....	12
5.3.1.	Heated tools .....	12
5.3.2.	Clamping devices.....	13
5.3.3.	Guide elements .....	13
5.3.4.	Control and regulating devices for force and penetration .....	13
<b>6.</b>	<b>Sleeve welding equipment with incorporated electric heating element .....</b>	<b>13</b>
6.1.	Structural design .....	13
6.1.1.	General .....	13
6.1.2.	Electrical safety .....	14
6.2.	EMC (Electromagnetic compatibility).....	14
6.2.1.	Operator control .....	15
6.3.	Input systems .....	15
6.4.	Temperature measurement to compensate for welding energy.....	15
6.4.	Operating procedures .....	15
6.5.	Equipment requirements .....	15
