Metal Working

Technical Bulletin DVS 3445-1 Flow Drill Screw Driving

Technical Committee of the DVS
Working Group V10 "Mechanical Joining" by the joint committee for DVS and EFB
EFB Subgroup 10.6/MF6 "High-speed joining and hole- and thread-forming screw
joints"

This information sheet was created in collaboration between the EFB - Europäische Forschungsgesellschaft für Blechverarbeitung e.V. and the German Welding Society DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V.

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., the EFB - Europäische Forschungsgesellschaft für Blechverarbeitung e.V. and those participating in the drawing up of the document

Content:

1.	Purpose and scope of the guideline	3
2.	General.....	3
2.1.	Process/procedure sequence	4
2.2.	Definition of Terms	5
2.3.	Joining element	5
3.	Design	6
3.1.	Achievable load-bearing capacity	6
3.2.	Component design	7
3.3.	Application limits/areas	9
4.	Production	10
4.1.	Machinery and equipment.....	10
4.2.	Parameters and process information	11
4.3.	Process monitoring	13
5.	Quality assurance	13
5.1.	Quality features and error patterns	13
5.2.	Non-destructive quality testing	19
5.3.	Destructive quality testing	19
6.	Reworking and repairs	21
7.	Occupational safety and environmental protection	22
7.1.	Occupational safety.....	22
7.2.	Environmental protection	22
8.	References.....	22
8.1.	Standards and Guidelines.....	22
8.2.	Literature	23
